

As part of the implementation of the pro-ecological policy at the Medical University of Łódź - „[ECOUMED](#)” we have provided two electric vehicle charging stations on the UMED Campus at 251 Pomorska Street.

Charging stations can be found in the following locations:

- 1** Near building **A1** >>> [Charger No.1](#)
- 2** Near the **MOlecoLAB** building >>> [Charger No.2](#)

Charging costs 1.50 PLN per kWh with three payment methods:

Debit card with contactless functionality – Simply tap it on the payment terminal without entering a PIN code*.

subscription/employee card

– with additionally purchased points for electric recharging.

When paying with a subscription or employee card, the value of purchased points will be reduced by the value of the purchased kWh**.

To purchase charging points, please visit the Customer Service Office on CKD campus.

Using the Monyx mobile application:

for **Android** system

for **iOS (Apple)** system

* When paying by card, a standard authorization hold of 100 PLN will be placed on your bank account until the transaction is settled (up to a maximum of 3 business days). After payment, any remaining funds will be returned to the payer's account.

** We will add 100 additional points to the value of purchased points, which you will be able to use if the value of purchased kWh is higher than the value of points on the card. In the case of using the spare points until the limit is refilled, payment with a subscription/employee card will not be possible.

For invoice issuance, please visit the website here:

<https://ciift.umed.pl/ev-faktury/>

or scan the QR code to provide your invoice details. Once issued, the invoice will be sent to the specified email address
